Xingqiao Tech - VPN Access Policy (Field Reference)

Fictional company: Xingqiao Tech. Source document: VPN ????????.md
This appendix mirrors facts already labelled in the Markdown version.

1. Scope

Applies to all active accounts and services managed by the platform team.
Field staff must follow the Markdown policy when the two disagree.

2. Confirmed values (must match the Markdown wording)

- XQ-IT-2026-011 V2.3, effective 2026-04-01
- Access granted within 1 business day; grant valid for 12 months

3. Operator checklist

1) Confirm the requester identity and ticket id in the service desk system.
2) Record the exact timestamp before and after the change.
3) Escalate to the platform on-call when a value conflicts with policy.
4) Attach the approval thread to the ticket before closing it.
5) Re-check the value against this appendix after any policy revision.

4. Escalation and contacts

Service desk extension 6001, weekdays 09:00-18:30 Asia/Shanghai.
Platform on-call pager is reachable through the service desk only.
Security incidents must be reported within one hour of detection.

5. Common questions

Q: Which document wins when this card and the Markdown policy disagree?
A: The Markdown policy is authoritative; treat this card as a field summary.
Q: Can a value be changed locally by a site administrator?
A: No. Local overrides are not permitted for the values listed above.

Q: How often is this card revised?
A: At least once per quarter, or immediately after a policy revision.

6. Related documents

- VPN ????????.md (authoritative Markdown version)
- Identity and Access Management Standard, revision V1.1 or later
- Service Desk Operating Procedure, revision V2.0 or later

7. Revision history

V1.0 2026-03-02 initial field reference for the synthetic dataset.
V1.1 2026-06-11 clarified escalation path and page-level traceability.
V1.2 2026-09-08 added common questions and related document list.

Note: page numbers in this PDF are used by KnowOps to verify PDF page tracing.
Printed copies are for reference only; the Markdown version remains authoritative.
